IEE Proceedings Part B
Electric Power Applications
Vol. 136, 1989

ABBREVIATIONS

- p paper, address or lecture
- d discussion on a paper
- a abstract of paper or address
- e errata

Author index

A

Acarnley, P.P., and Clarkson, P.J. see Clarkson, P.J.
Adams, N.K., and Williamson, S. see Williamson, S.
Al-Mothafar, M.R.D., and Evans, P.D. see Evans, P.D.
Al Zahawi, B.A.T., Jones, B.L., and Drury, W. Analysis and simulation of static Kramer drive under steady-state conditions p281

B

Belahrache, D., and Murgatroyd, P.N. see Murgatroyd, P.N.
Bourne, R. No load method of estimating stray load loss in small cage induction motors p92
Bowes, S.R., and Bullough, R.I. Novel PWM controlled series-connected current-source inverter drive p69
Boys, J.T., and Green, A.W. see Green, A.W.
Boys, J.T., and Green, A.W. Current-forced single-phase reversible rectifier p205
Brunton, L.J. Earth-leakage problems and solutions on the Tyne and Wear Metro p152 e204
Bullough, R.I., and Bowes, S.R. see Bowes, S.R.
Burdon, I.P., and Vogel, M.H. New ticketing system for the London Underground d59
Burnley, K.G. High-voltage stator insulation assessment by measurement of loss tangent and capacitance p229

C

Cho, G.-H., Shin, D.-H., and Park, S.-B. see Shin, D.-H.
Clarkson, P.J., and Acarnley, P.P. Simplified approach to the dynamic modelling of variable-reluctance stepping motors p1
Corcoran, J.C.W., and Morrison, R.E. see Morrison, R.E.
Cornick, K.J., and Tleis, A.N.D. Computer simulation of first pole-to-close multiple prestriking transients in motor systems p213

D

Drury, W., Al Zahawi, B.A.T., and Jones, B.L. see Al Zahawi, B.A.T.

E

El-Khazendar, M.A., and Stephenson, J.M. see Stephenson, J.M.
Evans, P.D., and Al-Mothafar, M.R.D. Harmonic analysis of a high frequency square wave cycloconvertor system p19
Evans, P.D., and Mestha, L.K. see Mestha, L.K.

F

Filipski, P. Power components in a system with sinusoidal and nonsinusoidal voltage and/or currents p90

G

Grantham, C., Sutanto, D., and Mismail, B. Steady-state and transient analysis of self-excited induction generators p61
Green, A.W., and Boys, J.T. see Boys, J.T.
Green, A.W., and Boys, J.T. Hysteresis current-forced three-phase voltage-sourced reversible rectifier p113
Green, T.C., and Williams, B.W. Derivation of motor line-current waveforms from the DC-link current of an inverter p196

H

Ho, S.C., Hong, C.G., and Hwang, G.J. Transient and steady-state performance of a squirrel-cage induction motor p136
Hong, C.G., Ho, S.C., and Hwang, G.J. see Ho, S.C.
Hwang, G.J., Ho, S.C., and Hong, C.G. see Ho, S.C.

I

Ishizaka, K., and Itoh, R. see Itoh, R.
Itoh, R. Method of reducing computation in the analysis of PWM current-source GTO convertor p105
Itoh, R. Stability of induction motor drive controlled by current-source inverter p83
Itoh, R. Steady-state and transient characteristics of a single-way step-down PWM GTO voltage-source convertor with sinusoidal supply currents p168
Itoh, R., and Ishizaka, K. Single-phase sinusoidal convertor using MOSFETs p237

J

Jazdzynski, W. Multicriterial optimisation of squirrel-cage induction motor design p299
Jones, B.L., Al Zahawi, B.A.T., and Drury, W. see Al Zahawi, B.A.T.

K

Kaźmierski, M., Krakowski, M.R., and Kersz, I. see Krakowski, M.R.
Kazimierczuk, M.K. Analysis of buck/boost zero-current-switching resonant DC/DC convertor p127
Kazimierczuk, M.K. Class E low dv_R/dt rectifier p257
Kersz, I., Krakowski, M.R., and Kaźmierski, M. see Krakowski, M.R.
Krakowski, M.R., Kaźmierski, M., and Kersz, I. Effect of current distribution in parallel bars on electromagnetic field at nearby steel wall p161

L

Lin, C., and Qishan, G. see Qishan, G.

M

Mellitt, B., Taufiq, J.A., and Xiaoping, J. see Taufiq, J.A.
Mellitt, B., Taufiq, J.A., and Xiaoping, J. Input impedance of chopper equipment and its significance in low-frequency track circuits p37
Mestha, L.K., and Evans, P.D. Analysis of on-state losses in PWM inverters p189
Mismail, B., Grantham, C., and Sutanto, D. see Grantham, C.

Xiaoping, J., Taufiq, J.A., and Mellitt, B. see Taufiq, J.A.
Xiaoping, J., and Taufiq, J.A. see Taufiq, J.A.

Subject index

CHOPPERS

Input impedance of chopper equipment and its significance in low-frequency track circuits. B. Mellitt, J.A. Taufiq and J. Xiaoping p37

COMMUTATION

Improved PWM method of forced commutated cycloconvertors. D.-H. Shin, G.-H. Cho and S.-B. Park p121

COMPONENTS

Power components in a system with sinusoidal and nonsinusoidal voltage and/or currents. M.A. Slonim and J.D. Van Wyk p90
Power components in a system with sinusoidal and nonsinusoidal voltage and/or currents. P. Filipski p90

COMPUTER APPLICATIONS

New ticketing system for the London Underground. I.P. Burdon and M.H. Vogel d59

CONDUCTORS AND CONDUCTIVITY

Bidirectional temperature-sensitive magnetic semiconductor and its application. K. Seki, J. Shida and K. Murakami p32

CONVERTORS

Analysis of buck/boost zero-current-switching resonant DC/DC convertor. M.K. Kazimierczuk p127
Harmonic analysis of a high frequency square wave cycloconvertor system. P.D. Evans and M.R.D. Al-Mothafar p19
Improved PWM method of forced commutated cycloconvertors. D.-H. Shin, G.-H. Cho and S.-B. Park p121
Single-phase sinusoidal convertor using MOSFETs. R. Itoh and K. Ishizaka p237
Steady-state and transient characteristics of a single-way step-down PWM GTO voltage-source convertor with sinusoidal supply currents. R. Itoh p168

EDDY CURRENTS

No load method of estimating stray load loss in small cage induction motors. R. Bourne p92

ELECTROMAGNETIC COMPATIBILITY

Input impedance of inverter equipment and its significance in low-frequency track circuits. J.A. Taufiq, B. Mellitt and J. Xiaoping p243

ELECTROMAGNETIC THEORY

Effect of current distribution in parallel bars on electromagnetic field at nearby steel wall. M.R. Krakowski, M. Kaźmierski and I. Kersz p161

ENERGY CONVERSION AND STORAGE

Saturation in doubly salient reluctance motors. J.M. Stephenson and M.A. El-Khazendar p50

FERRITES AND FERROMAGNETICS

Bidirectional temperature-sensitive magnetic semiconductor and its application. K. Seki, J. Shida and K. Murakami p32

FILTERS AND FILTERING

Specification of an overvoltage damping filter for the National Railways of Zimbabwe. R.E. Morrison and J.C.W. Corcoran p249

GENERATORS

Steady-state and transient analysis of self-excited induction generators. C. Grantham, D. Sutanto and B. Mismail p61

HYSTERESIS

Hysteresis current-forced three-phase voltage-sourced reversible rectifier. A.W. Green and J.T. Boys p113
No load method of estimating stray load loss in small cage induction motors. R. Bourne p92

INDUCTION MOTORS

Cage induction motors with inter-rings. S. Williamson and N.K. Adams p263
Current-forced single-phase reversible rectifier. J.T. Boys and A.W. Green p205
D-shaped toroidal cage inductors. P.N. Murgatroyd and D. Belahrache p96
Derivation of motor line-current waveforms from the DC-link current of an inverter. T.C. Green and B.W. Williams p196
Design method for L- and T-connected tapped-winding capacitor motors. A. Tozune p11
Effects of constructional asymmetries on the characteristics of 2-phase permanent magnet synchronous motors. A. Tozune and M. Sakamoto p143
Multicriterial optimisation of squirrel-cage induction motor design. W. Jazdzynski p299
No load method of estimating stray load loss in small cage induction motors. R. Bourne p92
Stability of induction motor drive controlled by current-source inverter. R. Itoh p83
Steady-state and transient analysis of self-excited induction generators. C. Grantham, D. Sutanto and B. Mismail p61
Transient and steady-state performance of a squirrel-cage induction motor. S.C. Ho, C.G. Hong and G.J. Hwang p136

INTERFERENCE

Input impedance of chopper equipment and its significance in low-frequency track circuits. B. Mellitt, J.A. Taufiq and J. Xiaoping p37

INVERTERS

Analysis of on-state losses in PWM inverters. L.K. Mestha and P.D. Evans p189
Derivation of motor line-current waveforms from the DC-link current of an inverter. T.C. Green and B.W. Williams p196
Fast accurate computation of the DC-side harmonics in a traction VSI drive. J.A. Taufiq and J. Xiaoping p176
Input impedance of inverter equipment and its significance in low-frequency track circuits. J.A. Taufiq, B. Mellitt and J. Xiaoping p243
Novel PWM controlled series-connected current-source inverter drive. S.R. Bowes and R.I. Bullough p69
Stability of induction motor drive controlled by current-source inverter. R. Itoh p83

MAGNETIC FIELDS

Field computation of permanent magnets with knee points. G. Qishan and C. Lin p275

METAL-OXIDE-SEMICONDUCTOR STRUCTURES

Single-phase sinusoidal convertor using MOSFETs. R. Itoh and K. Ishizaka p237

MICROPROCESSORS

Novel PWM controlled series-connected current-source inverter drive. S.R. Bowes and R.I. Bullough p69

MODULATION

Harmonic analysis of a high frequency square wave cycloconvertor system. P.D. Evans and M.R.D. Al-Mothafar p19
Novel PWM controlled series-connected current-source inverter drive. S.R. Bowes and R.I. Bullough p69

MOTORS

Computer simulation of first pole-to-close multiple prestriking transients in motor systems. K.J. Cornick and A.N.D. Tleis p213

OPTIMISATION

Multicriterial optimisation of squirrel-cage induction motor design. W. Jazdzynski p299

POWER CONVERSION

Analysis of buck/boost zero-current-switching resonant DC/DC convertor. M.K. Kazimierczuk p127
Hysteresis current-forced three-phase voltage-sourced reversible rectifier. A.W. Green and J.T. Boys p113
New cycloconvertor with static induction transistors. S. Miyazawa and F. Nakamura p293
Saturation in doubly salient reluctance motors. J.M. Stephenson and M.A. El-Khazendar p50

POWER ELECTRONICS

Analysis and simulation of static Kramer drive under steady-state conditions. B.A.T. Al Zahawi, B.L. Jones and W. Drury p281
Class E low dv_D/dt rectifier. M.K. Kazimierczuk p257
D-shaped toroidal cage inductors. P.N. Murgatroyd and D. Belahrache p96
Derivation of motor line-current waveforms from the DC-link current of an inverter. T.C. Green and B.W. Williams p196
Design method for L- and T-connected tapped-winding capacitor motors. A. Tozune p11
High-voltage stator insulation assessment by measurement of loss tangent and capacitance. K.G. Burnley p229
Method of reducing computation in the analysis of PWM current-source GTO convertor. R. Itoh p105
Novel PWM controlled series-connected current-source inverter drive. S.R. Bowes and R.I. Bullough p69
Single-phase sinusoidal convertor using MOSFETs. R. Itoh and K. Ishizaka p237
Steady-state and transient characteristics of a single-way step-down PWM GTO voltage-source convertor with sinusoidal supply currents. R. Itoh p168
Transient and steady-state performance of a squirrel-cage induction motor. S.C. Ho, C.G. Hong and G.J. Hwang p136

POWER SYSTEMS AND PLANT

Power components in a system with sinusoidal and nonsinusoidal voltage and/or currents. M.A. Slonim and J.D. Van Wyk p90
Power components in a system with sinusoidal and nonsinusoidal voltage and/or currents. P. Filipski p90

RAILWAY ELECTRIFICATION AND TRANSPORTATION

Earth-leakage problems and solutions on the Tyne and Wear Metro. L.J. Brunton p152 e204
New ticketing system for the London Underground. I.P. Burdon and M.H. Vogel d59
Specification of an overvoltage damping filter for the National Railways of Zimbabwe. R.E. Morrison and J.C.W. Corcoran p249

RELUCTANCE MOTORS

Bidirectional temperature-sensitive magnetic semiconductor and its application. K. Seki, J. Shida and K. Murakami p32
Saturation in doubly salient reluctance motors. J.M. Stephenson and M.A. El-Khazendar p50
Simplified approach to the dynamic modelling of variable-reluctance stepping motors. P.J. Clarkson and P.P. Acarnley p1

STABILITY

Stability of induction motor drive controlled by current-source inverter. R. Itoh p83

STEPPING MOTORS

Simplified approach to the dynamic modelling of variable-reluctance stepping motors. P.J. Clarkson and P.P. Acarnley p1

SYNCHRONOUS MOTORS

Effects of constructional asymmetries on the characteristics of 2-phase permanent magnet synchronous motors. A. Tozune and M. Sakamoto p143

THYRISTORS

Harmonic analysis of a high frequency square wave cycloconvertor system. P.D. Evans and M.R.D. Al-Mothafar p19

Method of reducing computation in the analysis of PWM current-source GTO convertor. R. Itoh p105

Steady-state and transient characteristics of a single-way step-down PWM GTO voltage-source convertor with sinusoidal supply currents. R. Itoh p168

TORQUE

Simplified approach to the dynamic modelling of variable-reluctance stepping motors. P.J. Clarkson and P.P. Acarnley p1

Transient and steady-state performance of a squirrel-cage induction motor. S.C. Ho, C.G. Hong and G.J. Hwang p136

TRACTION

D-shaped toroidal cage inductors. P.N. Murgatroyd and D. Belahrache p96

Fast accurate computation of the DC-side harmonics in a traction VSI drive. J.A. Tariq and J. Xiaoping p176

Input impedance of chopper equipment and its significance in low-frequency track circuits. B. Mellitt, J.A. Taufiq and J. Xiaoping p37

TRANSIENTS

Computer simulation of first pole-to-close multiple prestriking transients in motor systems. K.J. Cornick and A.N.D. Tleis p213

TRANSISTORS

Current-forced single-phase reversible rectifier. J.T. Boys and A.W. Green p205

New cycloconvertor with static induction transistors. S. Miyazawa and F. Nakamura p293

TRANSMISSION AND DISTRIBUTION PLANT

Steady-state and transient analysis of self-excited induction generators. C. Grantham, D. Sutanto and B. Mismail p61
